Nu Solutions Consulting is a full service Project Controls support organization specializing in the development and implementation of best practices through technology. We are an Oracle Primavera Gold Partner located in Alaska providing integrated portfolio and project management solutions, which consist of system analysis, implementation, training, and support services customized for your organization's needs. Nu Solutions offers a variety of training options for Oracle Primavera systems. We have Oracle Primavera certified training instructors and a classroom on-site with free parking. Each of our classes allows hands-on training with the latest equipment for each student. The maximum allowed per class is 12 students. Below is a detailed description of classes we offer.

Program Description, Cost and Length
Course 101 – Project Management in Oracle|Primavera Web Access* - This course provides hands-on training for Primavera's web-based solution. Participants will receive an overview of project management concepts, assign resources, view and approve timesheets, adjust the project plan to account for schedule delays and over allocated resources, and analyze portfolios. Participants also will customize the Personal Workspace - their "homepage" - and use the Project Workspace to collaborate with team members, manage documents, and initiate a project request. This three-day course includes lesson reviews and workshops to reinforce course material.

Learning Outcomes:
Customize Personal and Project workspaces
Manage a project from creation through initiation
Analyze project schedule and assess resource allocation
View and approve timesheets from projects resources
Collaborate with team members
Course level: Basic
Prerequisite: Fundamental Project Management Training & knowledge of Windows
Targeted role: Program Managers, Project Managers
Additional audiences: Existing myPrimavera users
Credential Earned: Certificate (upon passing)

Program Cost: $1295
Course Length: 24 hours/3 days

Course 102 – Project Management in Oracle|Primavera P6* - This course provides hands-on training for Primavera's client/server based solution. Participants will gain a thorough background in the concepts of planning and scheduling. Scheduling techniques will be covered. This three-day course leads you through hands-on workshops that create and track an entire project to completion. All workshops and instruction use the three basic elements of project management: schedule, resource and costs.

Learning Outcomes:
Create a project with activities and resources
Calculate a schedule
Analyze resources/cost data
Compare current ns. Target schedules
Course level: Basic
Prerequisite: Fundamental Project Management Training & knowledge of Windows
Targeted role: Program Managers, Project Managers, Planners/Schedulers
Additional audiences: Existing project management module users and existing P3 e/c, Enterprise, and TeamPlay users.
Credential Earned: Certificate (upon passing)

Program Cost: $1295
Course Length: 24 hours/3 days

Course 106-P – Advanced Project Management in Oracle|Primavera P6* - This two-day course provides in-depth project management training in Primavera's client/server-based solution. Building off skills learned in the basic course (102), the 106-P course covers advanced subjects such as earned value analysis; updating baselines; and top-down budgeting. Hands-on workshops enable students to apply skills learned throughout the course.

Learning Outcomes:
Create a project with activities and resources
Calculate a schedule
Analyze resources/cost data
Compare current vs. target schedules
Course level: Advanced
Prerequisite: Fundamental Project Management Training and knowledge of Windows; Course 102
Targeted role: Program Managers, Project Managers, Administrators, Planners/Schedulers
Additional audiences: Existing project management module users, Existing P3e/c, Enterprise, and TeamPlay users.
Credential earned: Certificate (upon passing)

Program Cost: $995
Course Length:16 hours/2 days

Course 106-R – Resource Management in Oracle|Primavera P6* - This two-day course provides in-depth resource management training in Primavera's client/server-based solution. Building off skills learned in the basic course (102), the 106-R course covers advanced topics in managing resource allocation, future-period bucket planning and resource leveling. Extended workshops at the end of each day provide an opportunity to apply new skills and functionality.

Learning Outcomes:
Create resources and roles across the enterprise
Use advanced functionality to assess resource allocation
Tailor resource allocation via bucket planning and leveling
Integrate resource and financial data
Course level: Advanced
Prerequisite: Course 102
Targeted role: Resource Managers. Program Managers, Project Managers
Additional audiences: Existing project management module users and existing P3e/c, Enterprise, and TeamPlay users.
Credential Earned: Certificate (upon passing)

Program Cost: $995
Course Length:16 hours/2 days

Course 107 – Resource Management in Oracle|Primavera Web Access - This course provides hands-on training for Primavera's Web-based solution. Participants will gain a thorough background in the concepts of resource management. This 1 1/2 day course leads you through hands-on case studies to add a resource to the enterprise resource pool; plan for resource needs in future projects; staff resources on current projects; and manage resources to ensure they are fully utilized. Participants are also provided instruction on using Primavera's collaboration functionality in the Personal Workspace.

Learning Outcomes:
Add a resource to show resource pool
Plan resource needs at a high level
Create resource teams and role teams
Manage resource allocation
Staff resource requests
Course level: Advanced
Prerequisite: Fundamental Project Management Training & knowledge of Windows
Targeted role: Resource Managers. Program Managers, Project Managers
Credential Earned: Certificate (upon passing)

Program Cost: $995
Course Length: 1-1.5 days

Course 700 – Project Management in Oracle|Primavera Contractor - This course provides hands-on training for contractors. It examines how to plan, schedule, control, and analyze projects.

Learning Outcomes:
Creating a project including activities and resources
Schedule a project and determine how to effectively optimize a project
Course level: Basic
Prerequisite: A working knowledge of Windows
Targeted role: Contractors
Additional audiences: Existing Primavera Contractor users
Credential Earned: Certificate (upon passing)

Program Cost: $995
Course Length: 2 days

Course 201 – Managing Contracts in Oracle|Primavera Contract Management - This course provides hands-on training for Primavera's web-based solution. During this three-day course, participants will learn project cost control and document management.

Learning Outcomes:
Manage contract execution
Log and Track project-critical documents
Analyze and control costs
Course level: Basic
Prerequisite: A working knowledge of Windows and Internet Explorer
Targeted role: contract & Project Administrators, Contract Managers, Project Control Managers
Additional audiences: Existing Primavera Expedition users
Credential Earned: Certificate (upon passing)

Program Cost: $995
Course Length: 2 days

Course NUCOE-101 – Scheduling in Oracle Primavera P6 and Contractor for U.S. Army Corps of Engineers Projects - Most capital construction projects for the U.S. Army Corps of Engineers (USACE) require a schedule in Primavera format. This schedule is the baseline from which all progress is measured, provides the foundation for Pay Applications, and is the integration point with USACE's Quality Control System (QCS). This course will discuss typical USACE contract requirements, and how to successfully meet those requirements using Primavera P6/Contractor.

Learning Outcomes:
USACE Contract Specifications relevant to the Project Schedule
Scheduling Concepts
Cost-loading the schedule
Workers per Day, Area of Work, Feature of Work, Phase of Work, Contract Line Item, Responsibility, and Modification
Preliminary and Initial Schedule Submissions

Required Reports
Standard Data Exchange Format (SDEF) file conversion and verification
Primavera Integration with USACE Quality Control System (QCS)
Schedule Updates
Payment Applications
Change Management
Course level: Advanced
Prerequisite: Fundamental Project Management Training and knowledge of Windows; Course 102
Targeted role: Program Managers, Project Managers, Administrators, Planners/Schedulers
Additional audiences: Existing Primavera Expedition users
Credential Earned: Certificate (upon passing)

Program Cost: $795
Course Length: 2 days

*Note: Courses 101, 102, 106-P and 106-R are standard, software functionality-based classes. Industry specific offerings/examples are not included in standard classes.
